Apex Aura

—An Aura of Digital Living—

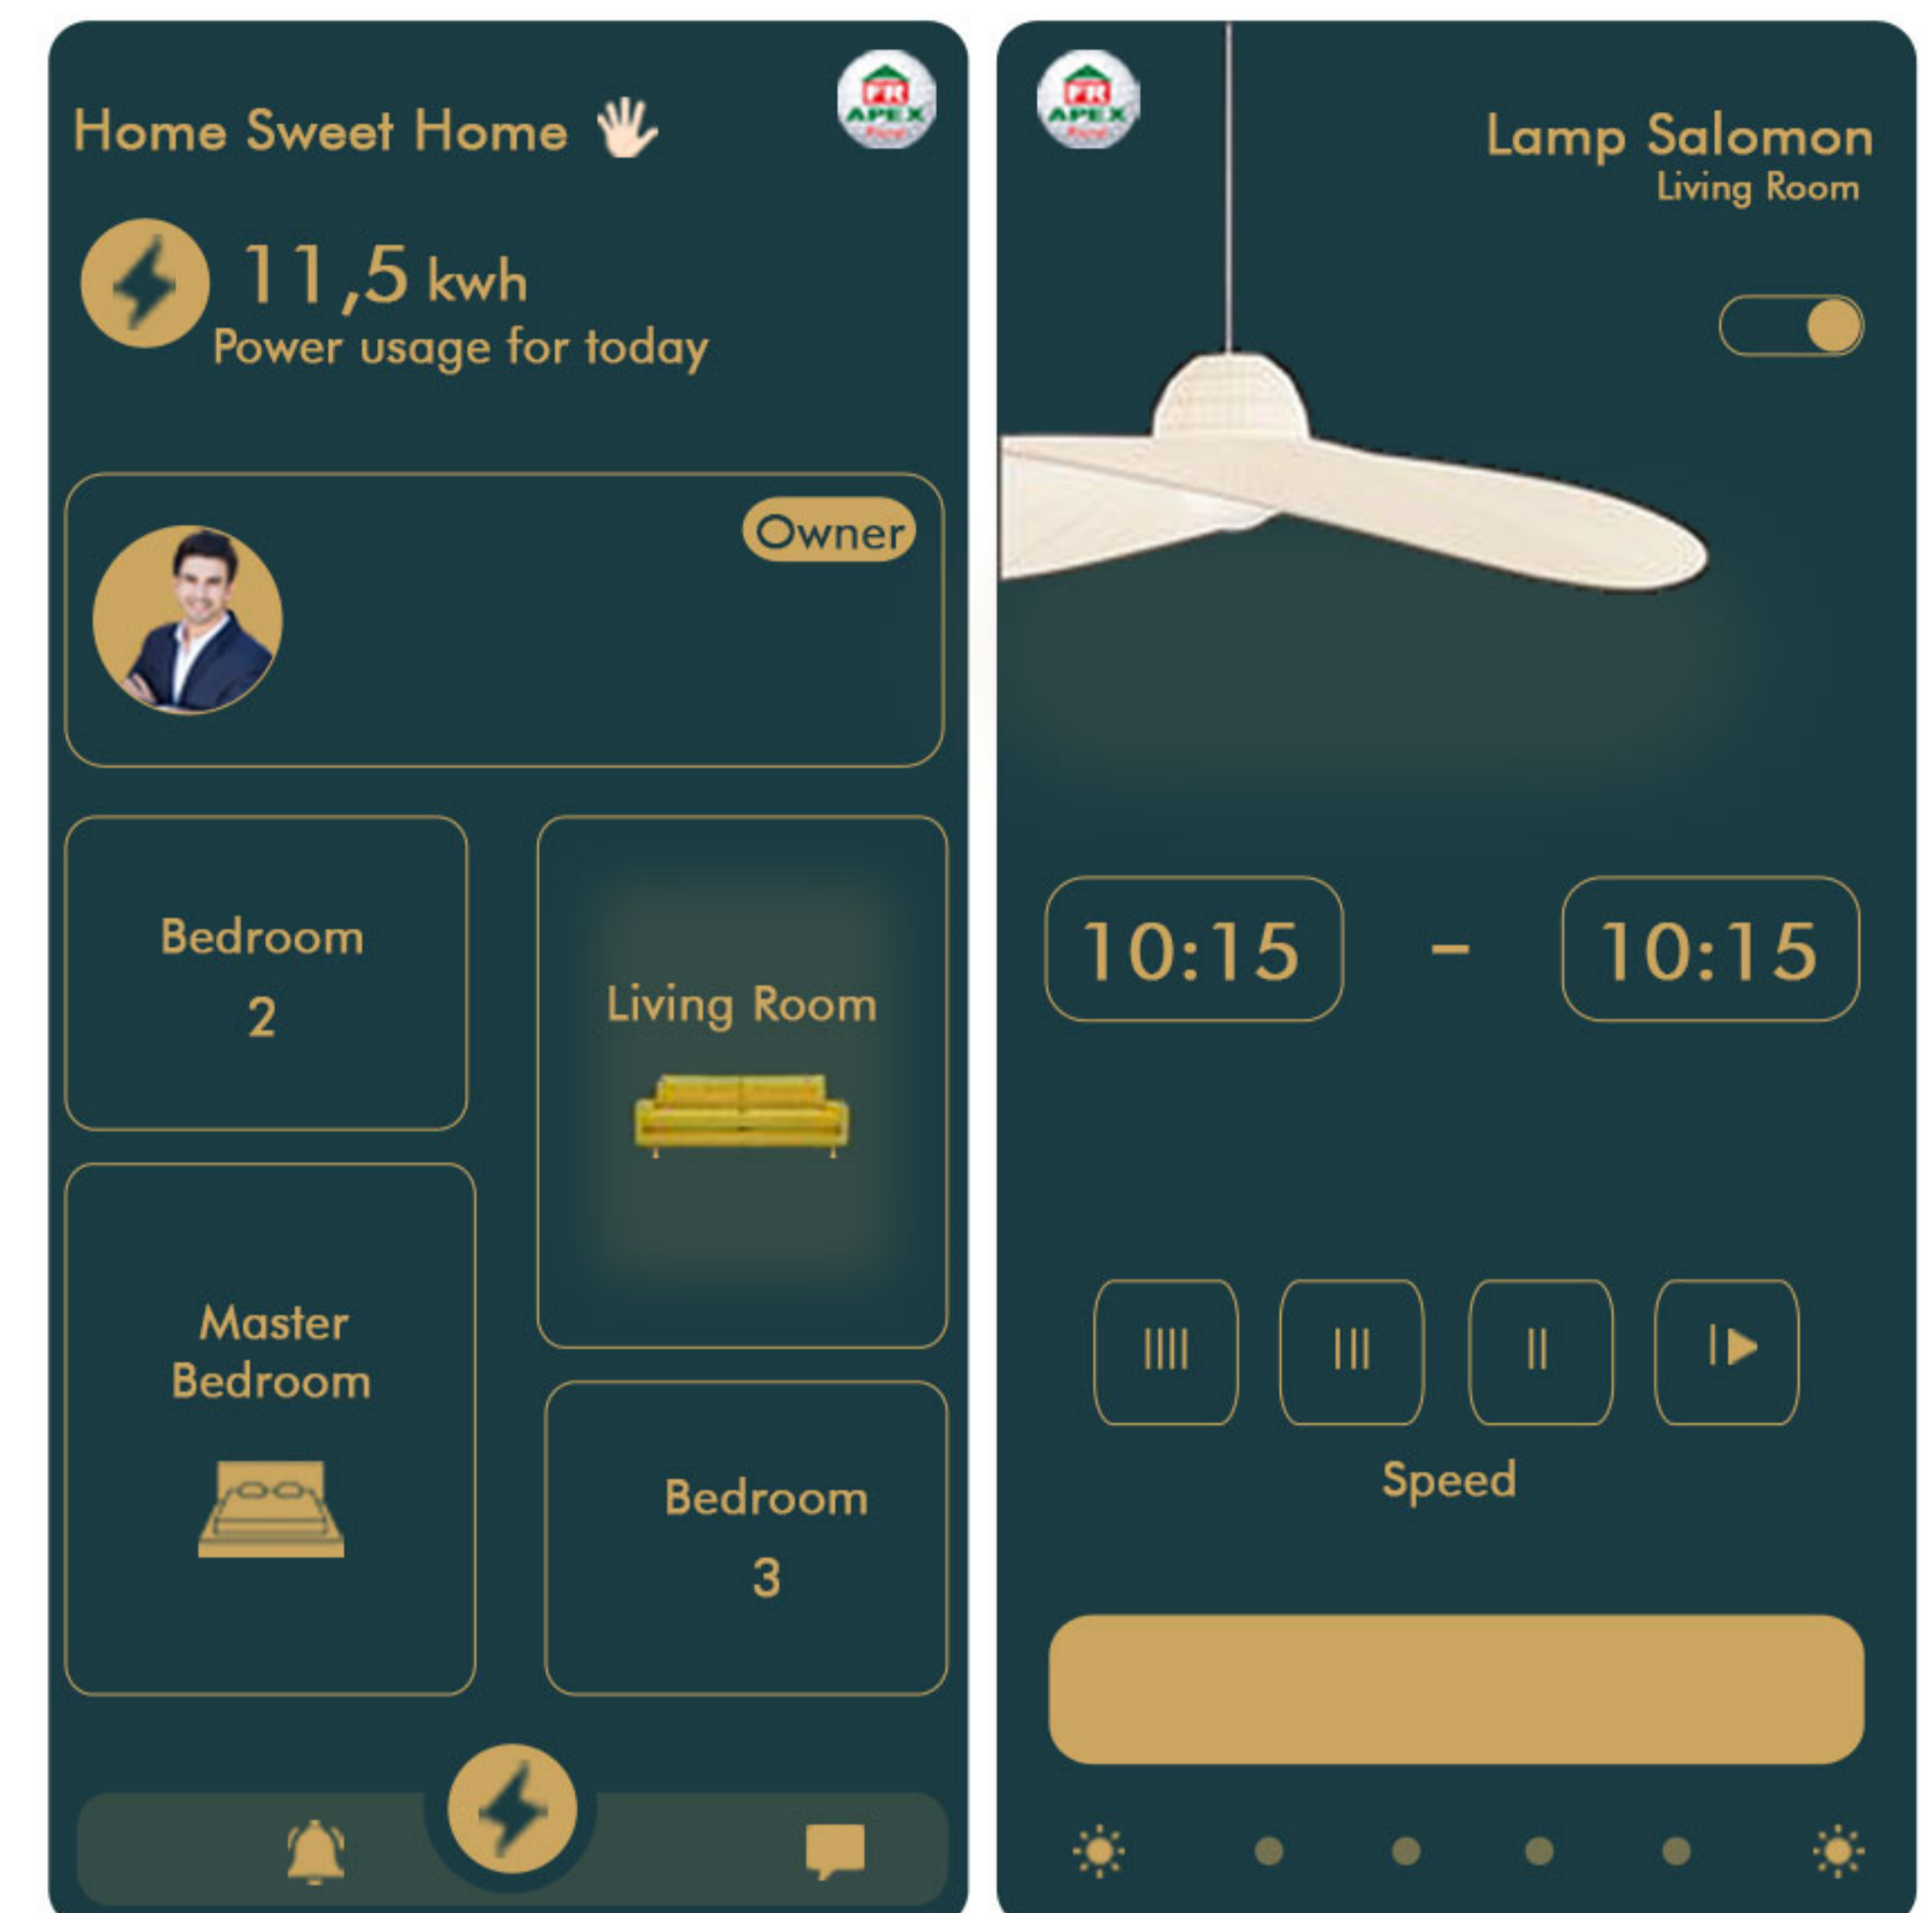

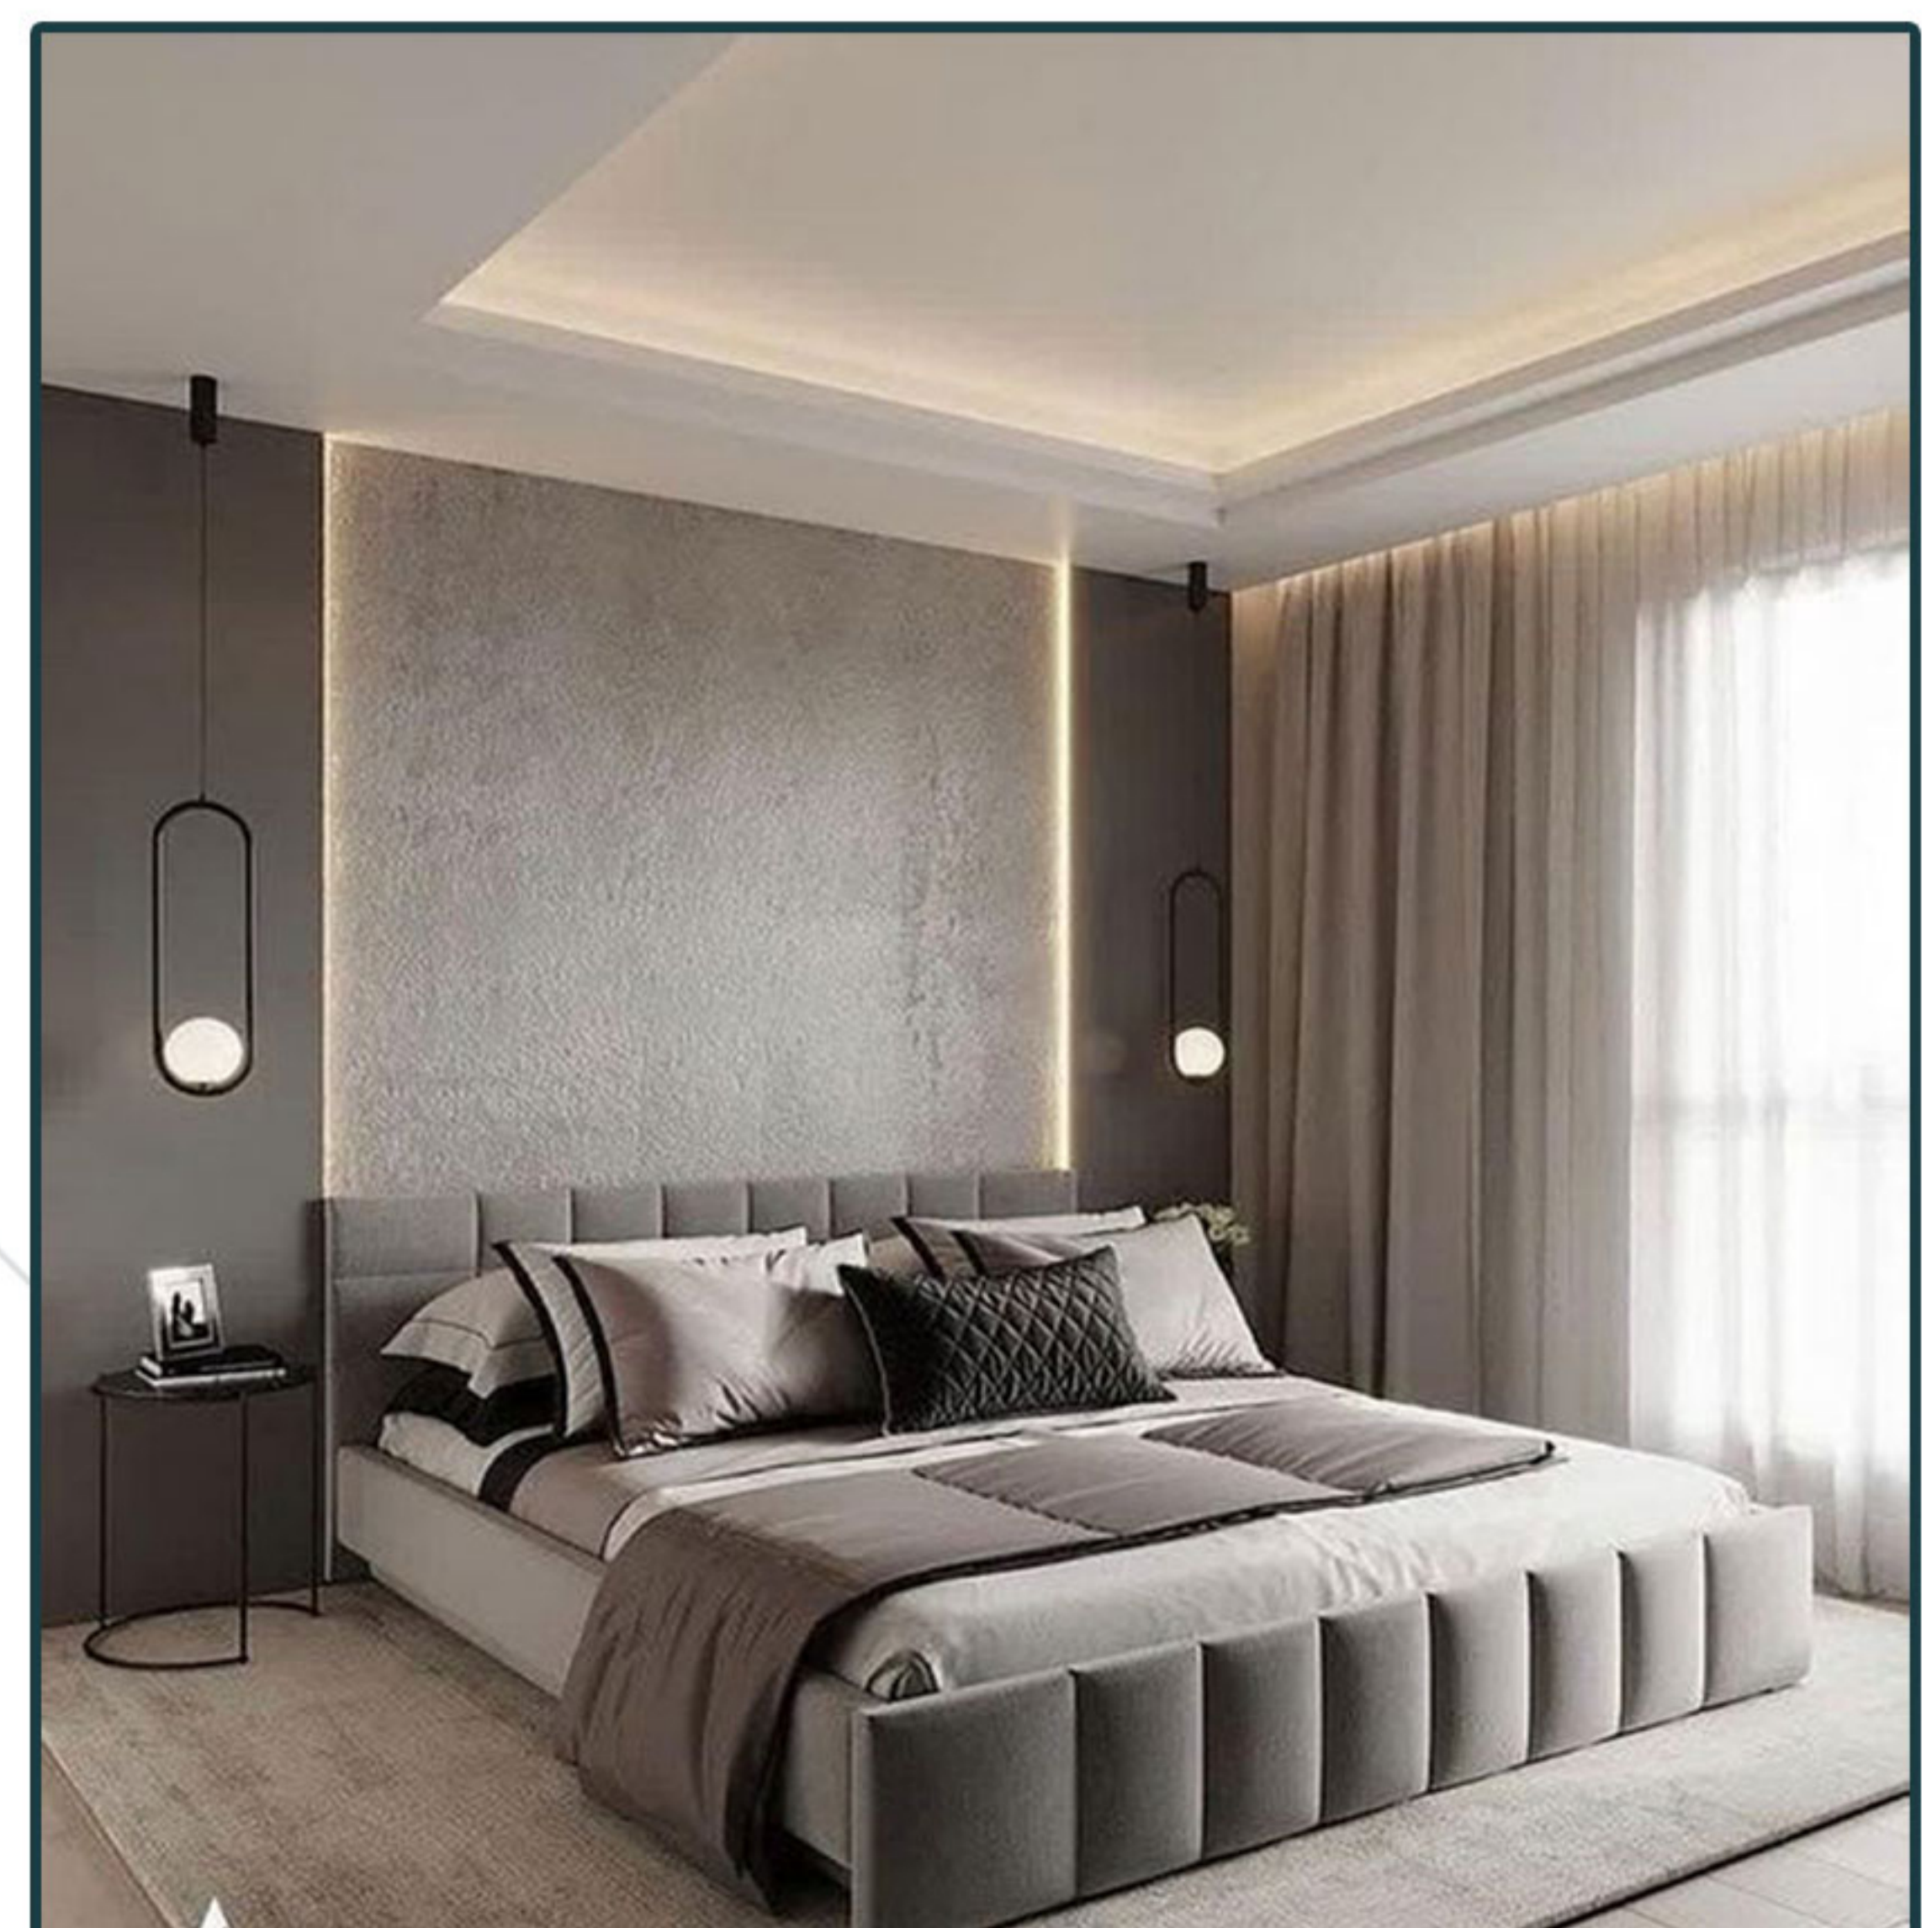

Future-ready Homes by Apex Floral

Apex Aura units are planned by keeping in mind your comfort, convenience & security. Not only that, our apartments are smart & energy efficient too.

Smart bedrooms for smarter you!

Manage all your light and other devices without you leaving your bed. Our Apex Floral app will let you manage everything at your fingertips. That's how the future of living is going to be.

A home that welcomes you like no other

Our intelligent living room is always ready to welcome you. You can announce your arrival by switching on your AC units even before reaching home. Our smart locking system will let you track who gets access to your home.

Note: Digitalisation of an apartment is an optional offering from the developer's end, and a buyer can opt-in or opt-out as per their requirement.
